### **AMS welcomes reintroduction of carbon tax legislation**

Washington, D.C. – The Alliance for Market Solutions (AMS) issued the following statement in response to the carbon tax legislation reintroduced today:

"We commend Congressmen Ted Deutch and Francis Rooney for reintroducing their carbon tax legislation," said Alex Flint, Executive Director of AMS. "They, along with economists, recognize that a carbon tax is the serious solution to climate change. A revenue-neutral carbon tax can spur economic growth and transform our energy economy, unlike other non-market-based proposals like the Green New Deal that rely on subsidies and regulations."

*Alliance for Market Solutions (AMS) is an organization of conservative leaders with experience in business, government, and the intellectual community who know that markets and economic incentives are the most powerful drivers of change and are more efficient and effective than top-down regulation. We aim to educate conservative policymakers on the benefits of market-oriented solutions to one of America's most pressing economic challenges: advancing clean energy and reducing carbon pollution.*

*The carbon tax policy we support is consistent with a pro-growth conservative agenda. It would replace costly regulations and prevent new regulations from burdening families and job creators. And it would eliminate economically harmful taxes on investment and family incomes. AMS is a 501(c)(3) non-profit educational organization. We don't engage in electoral politics on behalf of any candidate, campaign or party. We are recruiting allies and developing policy analyses to help conservative policymakers consider a pro-growth, conservative carbon tax policy.*
