AMS commends introduction of carbon tax legislation

Washington, D.C. – The Alliance for Market Solutions (AMS) issued the following statement in response to the carbon tax legislation introduced today:

“Congressmen Brian Fitzpatrick and Salud Carbajal are serious, thoughtful policymakers who are committed to addressing issues affecting Americans today,” said Alliance for Market Solutions Executive Director Alex Flint. “If we are going to get a deal on infrastructure legislation, it will almost certainly include innovative policy proposals like the MARKET CHOICE Act.”

###

[Alliance for Market Solutions](#) (AMS) is an organization of conservative leaders with experience in business, government, and the intellectual community who know that markets and economic incentives are the most powerful drivers of change and are more efficient and effective than top-down regulation. We aim to educate conservative policymakers on the benefits of market-oriented solutions to one of America’s most pressing economic challenges: advancing clean energy and reducing carbon pollution.

The carbon tax policy we support is consistent with a pro-growth conservative agenda. It would replace costly regulations and prevent new regulations from burdening families and job creators. And it would eliminate economically harmful taxes on investment and family incomes.

AMS is a 501(c)(3) non-profit educational organization. We don’t engage in electoral politics on behalf of any candidate, campaign or party. We are recruiting allies and developing policy analyses to help conservative policymakers consider a pro-growth, conservative carbon tax policy.
